TWELVE INMATES BURNED.

The Eastern Illinois Hospital for the Insans Burns at Kankakee-List of Dead and Missing.

KANKAKER, Ill .- At 4 o'clock this morning a detatched ward of the Eastern Illinois Hospital for the Insane was discovered to be on fire by the night watchman. The building was a two-story stone and brick, with no wood about it except the floor and stairways. It was completed last August and cost \$25,-000. It was used as an infirmary and contained forty-five insane inmates, twentythree on the first floor and twenty-two on the second. Brown, Rose and the latter's wife, were sleeping on the second floor, and attendents R-id, Williams and Freeman slept on the first floor. The building was heated by hot air furnaces. It was twelve degrees below zero when the watchman discovered smoke i sning from the floor immediately above the furnace and awoke the attendants. The smoke at once became drawn through a hot-air flue and along the halls to all parts of the building. The fire spread rapully, and all efforts to save the building were useless. Attendant W. A. Reid began dragging and carrying out patients. Many clad is night clothing rushed from the bitter cold air back into the burning building. Reid, at the risk of his life, struggl d on till twenty-one of his twenty-three patients were rescued, when he became exhausted. On the second floor attendants Rose and wife heard the alarm and escaped down the stair way just before it fell. Attendant Brown, sleeping on the second floor, was awakened by the smoke. He attempted to save a patient in an adjoing room, but failed, and sliding down a sheet from his window, jumped to the ground. Supt. R. S. Dewey reached the scene and with a ladder climbed to the second-story windows, smashed the windows and rescurd several patients. Almost all the patients refused to co operate in efforts being made to save them and were only rescued by being drag-ged from the flames and held from returning. A marvelous escape was that of an inmate who fell with the second floor, struck the burning debris above the furnace, and bounded through a wied w to the ground uninjured. The remains of twelve patients have been taken from the ruins, all burned to fragments, and only identifiable by the location where found. The dead thus far identified, with ages and residence, are: H. W. Belden, aged 50, Galeburg, Ill.: Thomas Hereley, aged 27, Chicago, brother of State Senator Herely; James Colbert, aged 32. Chicago; M. Jordan, aged 30, Chicago; Thomas Hickey, sged 35, Springfield; F. Weymouth, agad 32, Peru: Henry Brown, aged 4), Rock Island: S. W. Galloway, aged 42, Saybrook: Geo. Bennett, aged 21, Morris, Ill.: J. Johnson, aged 35. Dowville: Matthew Haigh, aged 43, Chebanse. Theodore Hoener, seed 33, Freeport. The following missing, doubtless perished: Alfred Rimyard, aged 50, Winnebago; C. M. Tyler, aged 45, Sheldon; C. Shatz, aged 65, Chicago; John Nathan, aged 42, Chicago; Orlando Ellis, aged 42, Pontiac.

At the coroner's inquest this afternoon Supt. Dewey testified that he had asked the Legislature two years ago for \$2,500 to protect these detached wards from fire, and \$1,000 were allowed, all of which was used in water mains and hydrants, but that amount was insufficient to answer the pur-

After hearing Sapt. Dewey's testimony, the coroner's jury adjourned till to-morrow. The fire was caused by defects in the steam heating apparatus, and the loss of life may be accounted for principally from the fact of the inability and helplessness of insane per sons in such an emergency. There are 1,500 patients in the other wards of the asylvm, of which the burned structure was the sick horpital. The telegraph office to-night is flooded with tel grams from all parts of the State. inquiring for the safety of inmates. The peeuniary loss will probably reach \$50,000.

The vessel started from Dublin Wednesday bound for Holyhead with a crew of seventeen men and some twelve passengers. In the channel she encountered a heavy gale, and labored hard. Soon the ship sprung a leak. Thursday night everything possible was done by the captain and crew, but when it was seen that the vessel was doomed, the lifeboats and barges were lowered. The wind was blowing a perfect hurricane at the time, and the night was dark. The boats pushed off, but two of them sank almost instantly and twelve of the crew and faur passengers were drowned. The remainder of the persons encountered terrible weather and suffered greatly.

A Novel Scheme.

New Year's Day in Paris witnessed the inauguration of an important postal reform. Five telephonic bureaus were opened at wellchosen centres of business or population. The Bank was necessarily the most important, and the office of the Grand Hotel gave the greatest facilities to strangers, but Parisians in all directions could avail themselves of the offices temporarily opened near the Madeleine, in the Rue de Grenelle, on the Boulevard Malesherbes, and in the great centre of the Halles. The use of these offices was not restricted merely to subscribers. The public had access to all of them, and the scale of payment was fixed by time, and a charge of half a franc laid down as the unit of payment. This secured five minutes' uninterrupted conversation, with the privilege of ratable protraction.

MINERS ORGANIZING.

RECEIVING GUNS AND DRILLING

Not to Make War on the Guards, But, as They Claim, to Prevent Scab Labor in the Valley.

SHAWNER, O., Jan. 18 .- No one here denies

but that the miners are organizing and arm-

ing themselves for some purpose. Whether

it be to frighten operatives, scare blacklegs out of the district, or defend themselves, is · question that no one outside the organization can at present answer. In conversation with one of the leaders it was learned that all arrangements are now completed, and that to-morrow from 1,200 to 1,400 men throughout this district will commence drilling under directions of competent drillmasters. The manual of arms will first be taught, after which the men are to be given a thorough course of drilling. At present only a portion of the men are armed, but within three weeks all will be. Four boxes of repeating rifles were received here yesterds, and more are on the road. All intend to thoroughly equip ourselves and will give one of the finest military exhibitions ever witnessed. The drilling for the present will all be done in-doors, the boys being divided into small squads. As the weather becomes more suited for out-door exercises our forces will be gathered together and formed into a regiment with necessary officers, etc. The men are not contemplating making an open war on the guards, but are organizing to prevent scab laborers from coming into the valley and taking places. The news has been received here this evening that scores of black-legs are leaving the lower portion of Hocking Valley. At Langstreth it is said so many of the men left that the works were not opened at all yesterday. A man from Buchtel said that fully 400 blacklegs had secretly left the Valley since the fact became known that the Union men were arming themselves. The work of cers, etc. The men are not contemplating men were arming themselves. Not an Every-Day Romance, but a Story Founded on Facts.

Supt. Conely and Sergt. Culver are just at present struggling with an interesting case. About three years ago Mrs. Maria Hazard, of New York, placed in the care of Henry Crump, of 566 Lafavette avenue, her son, Oliver Perry Hazard, then eight years of age, she being a widow at that time. About a year ago she married a man named Strandberg, of New York, since which time she has been endeavoring to regain posession of her son. The Crumps became very much attached to the lad and refused to give him up. A short time since the mother gave a Pull-man car conductor \$20 to bring the child to New York, but he was kept in such close custody that the scheme failed. Thursday Mrs. Strandberg arrived in Detroit armed with a letter to Supt. Conley from Supt. of Police Walling, of New York. Sergt. Culver, in whose charge the case was put, found the lad at the Clinton school. and took him in custody pending the settlement of the case in the Probate Court. The Crumps propose to make a bitter fight, and have retained William Look: the mother Frank Russell, Mrs. Strandberg is possessed of means and thinks it singular that she should not have the custody of her child .- Detroit Times.
